Daily Bodie Standard.

T. S. HARRIS,
Publisher and Proprietor.

WEDNESDAY, JULY 16, 1879.

NOTICE.

Hereafter and until further notice the DAILY and WEEKLY STANDARD will be delivered to subscribers, in Bodie, by W. H. ELLIS, who is authorized to make collections and receipt for subscriptions.

J. W. STINSON is our carrier for Bodie Hill, and is authorized to solicit for subscriptions, advertising and job work, collect and receipt for same.

T. S. HARRIS,
April 28, 1879. Proprietor.

NOTICE.—No bills, accounts, or orders given by any person connected with the BODIE STANDARD will be paid by me, except the same is given by myself or H. L. Childs, Business Manager. In the settlement of the late firm affairs, I assumed none other than firm debts.

T. S. HARRIS.

First Annual Meeting of the California Press Association.

SAN FRANCISCO, May 1, 1879.

The first annual meeting of the California Press Association will be held in the parlors of the Palace Hotel, San Francisco, on Wednesday, October 8, 1879, at 12 o'clock M.

You are cordially and earnestly invited to be present and co-operate with us for the general good of the craft.

Arrangements are now in progress by the Executive Committee of the Association to render the occasion a memorable one in the history of the Press of the Pacific Coast.

Among other features of the programme will be a special entertainment at one of the leading theaters of the city, a banquet at the Palace Hotel, and an address by a distinguished ex-member of the Press. Fraternally yours,

F. K. KRAUTH, Secretary.
By order of Executive Committee. td

The receipts of gold at the San Francisco Mint on Tuesday amounted to 62,270 70 ounces, valued at about $1,250,000. This is the largest day's receipt of gold since the opening of the Mint. There were 210 deposits.

◆

A young man, the other day, got married against the wishes of his parents, and requesting a friend to break it to them, said: "Tell them I am dead old fellow, and gently work them up to the climax."

◆

The *Enterprise* says it is now charged that when a box was placed in the House for the reception of reading matter for the sick, the members crammed it with their speeches. And it is further reported that the hospital had not a patient the next day. All who could walk fled—the balance died.

◆

Yellow fever has put in an appearance in the South. Two deaths have occurred in Memphis and the inhabitants of that region are fearful lest the terrible experience of last year is to be repeated. A burnt child dreads the fire, and the Southern people dread the yellow fever worse than they would an invading army; still, comparatively speaking, but few precautions were made to stop the progress of the plague should it return this year.

◆

Senator Booth has returned to his home after a long term of arduous and well performed duties at Washington. California may well feel proud of so able and faithful a Senator, who ranks with the first in that distinguished body. Many measures of great importance to the country, particularly to the Pacific Coast, were introduced and passed by him. We may say that he has most faithfully represented the people of this State, who cordially welcome his return.

◆

The California Press Association, in view of the existing unsettled state of affairs in the State, have resolved, through its Executive Committee, to postpone the time of its annual session from the 16th of July to the 8th day of October, at which latter date all extraneous matters will have been disposed of, political and otherwise, including the State and the several county fairs. The committee are especially desirous that no other matters shall interfere with this meeting. The papers of the coast will please make a note of this postponement.

THE BODIE MINES MISREPRESENTED IN NEW YORK.

The New York *Graphic* man has been interviewing D. G. Croly, who, it will be remembered, visited Bodie some weeks since. The result is over a column written regarding Bodie mines. Mr. Croly gives a fair and impartial report with one or two exceptions. One, at least, was a grave error and must have been the result of wrong information imparted to the gentleman while here in Bodie. The question was asked and answered as follows:

Q. I notice that you avoid mentioning the Belvidere, which, on the maps, lies between the Consolidated Pacific and the Bulwer; from its location it ought to be good.

A. I am given to understand that the Belvidere ground really belongs to the Consolidated Pacific. The mining laws allow the first discoverer of a vein to follow all its dips, spurs and angles. As the Belvidere has discovered no vein of its own, so far as I have heard, and as the dip of the ore body in Consolidated Pacific is towards the east, it is very likely that the Belvidere ground will soon be added to that of the Consolidated Pacific. Some Boston parties bought a mine on Silver Hill called the Spaulding, and struck pay ore, but it is found to be a ledge which started from the Booker—a mine next above them on the hill—and I now understand that all that is valuable in the Spaulding belongs to the Booker.

The clause wherein he states that the ledge starts from the Booker is quite absurd, as the Booker lies east of the Spaulding, and the Spaulding shaft, at the southern end of their ground, was where the ledge was struck. This ledge eventually (like the majority of the ledges) inclines or pitches to the east. Some time early last May it was discovered that the ledge was likely to be followed, at a considerable depth, over into the Booker's ground. A shotgun demonstration on the part of the Booker was the result. The Spaulding was stopped temporarily, but at once had an injunction served and they now have a suit on the calendar of the Twelfth Judicial District Court in San Francisco, claiming $50,000 damages. The case, it is expected, will be called in a few days. It simply appears to be a question of priority of right in the location, which the Spaulding claims. The Spaulding Company have their ground secured by a United States patent—they being the only company at the south end thus protected. We have no particular right to favor the interest of either company, but deem it right in protecting any company who may be misrepresented and possibly injured, especially at such a distance as New York.

GEO. C. GORHAM.

On Friday evening, July 11th, at Union Hall, San Francisco, one Geo. C. Gorham, a disappointed Washington office-seeking bilk, ventilated himself in a strained endeavor to blackmail his betters and the men who gave George C. Gorham any prominence or notoriety whatever. It is the old story over again: "Give a nigger an inch and he wants a foot; give him a yard and he wants a rod." The attack of this political fraud upon Frank Pixley—a man so much his superior in intelligence and honor that it seems like mockery to attempt to draw any comparison—is without any parallel, except amongst the lowest sort of thieves or stage robbers when, occasionally, one is found to "peach" upon those who are willing to divide in case anything is made. The most singular thing about the business is that the *Chronicle* and other papers, that heretofore have written this barnacle upon the Republican party down, are now endeavoring to sustain him. That is, it is singular to those who are not posted as to the influence governing the *Chronicle* and papers of that ilk. Its success, in a financial point of view, has been so great, and George C. Gorham is so well aware of that fact, that it required but little argument on the part of the De Youngs and other Honorable Bilks to convince George that, since he is doomed to defeat as a candidate for a United States Senator from California, he might as well pursue a similar blackmailing course, and thereby add to his exchequer. We are not apologists for the Central Pacific Railroad Company. Their deeds may have been of the most infamous character, but when a man like George C. Gorham, who was brought to political light through the coin and influence of these, and other what he pleases to denominate "monopolies," then we enter our protest. His diatribes last Friday evening upon Pixley and the railroad company were low, senseless and ungrateful, and prove beyond a doubt that any man who has been elevated to the position to which he attained through the same instrumentality which he now would ruin, is not fit to receive the votes of the people of California for any office, nor should the people deign to listen to his regular harangues. If he will go back upon his generous masters, will he prove true to the people? Assuredly not. He has proved himself to be a dishonorable bilk, and should get back to Washington as soon as possible, for California has no use for such a filthy carpet-bagger. We did not suppose that Kearney would ever find his counterpart in low blackguardism, falsehood and billingsgate, but George C. has entered the lists, and the sand-lot orator must look to his laurels. He is now laying his plans for a heavy bid from the railroad and other corporative institutions, but if they are foolish enough to give him a two-bit piece we hope the whole honorable bilk party may be elected and will then take a course to cinch them to death.

◆

Colonel Wm. Allen died a few days since at Chilicothe, Ohio. His high rank as a politician did much to make Hayes President, as he was the only one who ever beat the old man, and it gave him great prominence. He was very popular in his adopted State, where he was called by a dozen different names, such as "Old Bill," "Uncle Bill," "Rise up William Allen" and "Fog Horn Allen." The latter he obtained as early as 1846, when a Whig engineer tried to drown him out with a steam whistle, while he was addressing a Democratic meeting in a railroad engine house. Uncle Bill talked the whistle out, however, and finished his speech in triumph. He was shelved for several years, politically, but in 1873 he was re-surrected, and surprised everyone by making a rousing and successful fight for the governorship. In 1875 he was renominated and beaten by Hayes. He was born in Edenton, North Carolina, in 1806.

[SPECIAL TO THE BODIE STANDARD.]

WASHINGTON.

Cotton, Corn and Cereals.

WASHINGTON, July 16.—The returns to the Department of Agriculture of the cotton crop, show that the condition of the crop for June, which was 96, has not been mentioned, and was up to July 1, 93. Corn in the whole country exceeds last year. In Ohio and Indiana there is some decrease. In Illinois there is an increase of seven per cent. The States west of the Mississippi River gain the most. A section of Nebraska, Kansas, Iowa and Missouri bring from 104 to 118. In all the Southern States it is lower on account of the drouth. In Texas it is not over half a crop. The Northern States show a fair crop. The Northern States show a fair condition, while those east of the Mississippi River show a very high average—in some cases over 100. The tobacco average for the whole country shows a decrease. In the four States of Connecticut, Massachusetts, New York and Pennsylvania, in which the bulk of seed-leaf tobacco is grown, there is an acreage of about thirteen per cent. Of the States producing, shipping, manufacturing and smoking tobacco, which constitutes nine-tenths of all the tobacco grown in the United States, North Carolina alone shows an increase in the area planted. All the others indicate a material decrease from last year. The condition of the whole country is slightly below that of July 1, 1878. The spring wheat returns for July give the average condition of spring wheat at 91 against 106 on July 1, 1879. The Northern New England States range nearly up to the average. A few counties in Northern New York average 89. Texas is the only Southern State producing it to any extent, and reports but 61. In the Northwest spring wheat States the range is from 92 to 96, but Iowa falls to 88. The spring wheat crop of Kansas is but 68. On the Pacific Coast most of the California crop is returned as spring wheat, and averages 92. The small spring wheat crop of Oregon is of the full average. The condition of the crop in the Southwest and Northwest was largely affected by the drought. In some sections the Hessian fly is very injurious. In the Northwest, local storms were more or less destructive. The winter wheat for the July returns shows an average condition of 91 against 101 for July, 1878. The New England States average 99. The crop here was small and late, but promising. In the Middle States there are 86 complaints of drought, mildew, Hessian fly and local storms. The South Atlantic States average 95.

Raum's Circular.

WASHINGTON, July 1s.—Commissioner Raum has sent circulars to all Collectors of Internal Revenue in the moonshine districts, informing them that although the usual appropriation for the fees of the United States Marshals have not been made by Congress, his office will not relax the efforts to suppress fraud by the seizure of any illicit distillery and the prosecution of offenders. He directs the Collectors to relieve as much as possible the Marshals from the embarrassments of their situation, and informs them that he proposes to give them the necessay force to execute the laws.

Financial Operation of the Government.

WASHINGTON, July 15.—A memorandum of the operation of the Government has been issued from the Treasury, showing that the reduction in interest-bearing debt from the highest point from August 31, 1863, to July 1, 1879, amounted to $583,886,594, and the reduction in the annual interest charge, when the present funding of operations are completed, August 1, 1879, will be $67,203,519. The total debt has been reduced $72,234,315. The reduction since March 1, 1879, is $21,553,862. The bonds refunded under the Act of July 14, 1870, and January 20, 1879, amount to $1,396,022,000, on which the annual interest charge was $81,673,547. These will be replaced not later than August 1, 1889, by bonds on which the annual interest charge will be $61,760,880, making an annual saving hereafter in interest charge on amount of refunding operations of $1,990,737.

PACIFIC COAST.

A Row Among the Celestial Sports.

SACRAMENTO, July 15.—A fight occurred in Chinatown to-night, in which several Chinese belonging to the rival companies were engaged. Five or six shots were fired, and on the arrival of the police Ah Let was found dying, with three bullet holes through his body. It is supposed that a Chinese highbinder named Wong Kin is the murderer. Ah Jupp was found under a bed wounded in the hand, but he is thought not to be a shooter, though a partly emptied revolver was found by his side. The melee arose over a dispute about a gambling game.

NEW TO-DAY.

GRAND
WALKING MATCH!
OF 12 HOURS.

FOR $500 ASIDE
—BETWEEN—
MISS VIOLA ROSEBERRY,
Late of New Orleans,

PICNIC AND DANCE.

THERE WILL BE A GRAND OLD-fashioned Family Picnic at the Willows or Toll House, on the Big Meadows and Bridgeport road, on

THURSDAY, JULY 24TH, 1879.

The grounds are beautiful and Natnre's own production—the finest place in the country for picnicing purposes. The proprietor has just built a large and commodious house, in which there is a splendid dance hall 20x40 feet. Tickets for the dance, including supper, $2.

The music will be as good as the country affords.

There will also be a fishing excursion up Green Creek, on the 25th, when all who like the sport of trout fishing, can enjoy it to their heart's content.

D. M. WALTERS,
jy16-td Proprietor.

FOR SALE.

WE WANT TO SELL OUR PROPERTY, on Main street opposite Wagner's Saloon, known as the San Francisco Market House, lot, fixtures, and all goods, wholesale and retail. We have concluded to sell everything cheap for cash at cost, as we are retiring from business as soon as possible. Please call and examine the same at our place.

UNCALLED FOR MESSAGE.—There is a message at the Telegraph Office for A. M. Dodson.

Injunction.

Many inquiries having been made about the North Noonday and Orient controversy, we sent our reporter to inquire into the matter. It appears that the North Noonday claim was located in the year 1875—1500 feet long by 600 feet wide—upon a ledge discovered in a shaft on the line between the Noonday and North Noonday claims, the Noonday claiming in a southerly direction and the North Noonday in a northerly direction. In the case of the Noonday Company against the Live Yank, tried at the last term of the District Court, it was decided, upon full investigation, that at the time of the location of these claims both the United States law and the local law of Bodie Mining District authorized the location of claims 1500 feet in length by 600 feet in width, and conferred upon the parties all veins within such surface boundaries. The North Noonday Company, after its first location and while in possession, discovered the Key Stone and East Noonday veins within the limits of the first location, and located them as a matter of precaution. The Noonday and North Noonday companies have been for a long time sinking a joint shaft, and have hoisting works inferior to none in the State, and are jointly building a first-class thirty-stamp mill. The Orient claim was a location to the west of the North Noonday. A shaft was sunk on this claim to the depth of a hundred feet, and a drift run west from the bottom of the shaft two hundred and sixty feet into and under the surface of the North Noonday claim. In this drift a very important strike was reported some weeks ago; but everything moved on quietly until within a few days, when the Orient managers went upon the surface of the Noonday claim, near the lode line thereof, and a short distance north of the Noonday hoisting works, and commenced to put up a donkey engine and sink a shaft. It was reported that the Noonday managers would resist this encroachment by force, and a collision was feared; but they deny that they ever had such intention, and say that they rely upon the law for protection; that violence has already ruined too many mining camps. We commend the course adopted—to let the Courts decide. The practice which is said to have been adopted by the Orient Company, of running under ground into their neighbor's claim, cannot strengthen their case or injure the title of the North Noonday company when the facts shall have been fully developed, and the prompt appeal to a Court of Justice upon the discovery of the true situation is creditable and proper. We do not desire to prejudge any case, but when parties come among us and purchase the oldest and best known titles of prospectors in possession, and give employment to large numbers of men, they are entitled to the protection of the law, and we hope that justice may be done in the present case.

A QUEER PET.—The Virginia *Enterprise* has the following toad story: "Tom Jackson, of this city, has a trained horned-toad, which is quite a curiosity. It is as tame as a kitten, and in a quiet way is full of fun. Mrs. Jackson has trained the little fellow to stand erect upon his hind feet, to stand on his head—steadying himself with his fore paws—to turn over on his back and sham dead, and to do quite a number of similar tricks. Tom says he thinks she will soon have the toad trained to play the jewsharp quite as well as the average Piute musician. The toad is fed on flies and similar insects, but is also very fond of milk, which it drinks from a spoon. Although always called a horned-toad or horned-frog in this country, the little reptile is a lizard. Naturalists call it an ignauian lizard of the genus *phrynosoma*. Our mountaineers, who are often quite as close observers of every living thing met with in the wilds as any naturalist, speak of a thing characteristic of the horned-toad that we have never seen mentioned by any of the scientists. It is that when the female is teased by a dog it ejects two small streams or slender threads of blood—at least a red liquid resembling blood. The liquid is spurted to the distance of nearly two feet, and with considerable force. The liquid is evidently provided the little animal as a means of defense against foxes, wolves and such animals, and whatever may be its nature it renders a dog very uncomfortable in the region of the stomach. One dose of it satisfies his curiosity.

TRUE BLUE MINING COMPANY.—In another column will be seen an advertisement of the True Blue Mining Company. This company has as fine a prospect as can be desired. It is located in Lake District, and a personal inspection of the ore satisfies us that their proposition to sell a limited number of shares, in order to create a larger working capital should be availed of by all who desire to get in on a good thing at bed-rock prices. We are personally acquainted with the officers of the company, and can assure all our friends that if they invest their money in the True Blue, they will meet with fair dealing, with an excellent opportunity to make some money.

ANOTHER GONE.—Hugh McMillan, a victim of the explosion, died this morning at 11 o'clock. This makes the seventh, their names being as follows: Frank Fiele, Hugh McMillan, Thomas Flavin, Charles Malloy, Wm. O'Brien, John McCarthy and Hugh McMillan, No. 2. Every attention was given him, but his recovery was considered an impossibility from the start. Mr. McMillan is 48 years of age and leaves a wife and three children, who are living in Canada. His nephew has been by his bedside constantly, and great credit is due to the proprietor of the Grand Hotel for kindness and care rendered to the deceased.

MOLLIE RAYNOR.—To-morrow evening this favorite actress is to take her farewell benefit. Among the host of volunteers who will appear on this occasion is Bobby McGinley, who will give some very fine violin solos, for which he is famous.

Republican Convention.

We are furnished this morning the original copy of the proceedings of the Republican Convention in detail, but find it necessary to condense in order to secure room for the few particulars which were not furnished in time for yesterday's issue.

C. A. Richardson was elected permanent chairman, and E. W. Taylor, Secretary. James Cross, of Mammoth, was endorsed as the choice for Joint Senator. In the nominations for Assemblyman, Capt. S. D. Prescott, of Indian District, was elected. The county officers were then nominated as follows:

Superior Judge—R. M. Briggs.
County Clerk—J. W. Towle.
Sheriff—James Showers.
District Attorney—E. W. Taylor.
Treasurer—A. H. Allen.
Superintendent of Public Instruction—J. C. Turner.
Public Administrator—T. Brodigan.
County Commissioners—W. Wetherell and Morris Dick.

Delegates to the Joint Assembly and Senatorial Convention referred to Central Committee.

Personal.

T. S. HARRIS, proprietor of the STANDARD, arrived from San Francisco by this morning's stage, and has immediately gone to work laying the foundation for our new cylinder press.

JONAS SEELY, a prominent lawyer from Virginia City, arrived in Bodie this morning.

LAST CHANCE MINE.—The work of developing Bodie District progresses steadily and each day sees new and important work started. Some of the oldest locations in the district, many of them long neglected, are now being taken in hand and intelligently developed. The latest candidate for public favor is the Last Chance mine, situated on the western side of Queen Bee Hill, and the second oldest location on that eminence, the Queen Bee taking precedence. The Last Chance is 1,500 feet long and a ledge within its lines has already been developed a length of 600 feet by means of incline shafts 40 to 70 feet in depth. Ore from this ledge yielded $30 per ton. The improvement in Queen Bee, which is about 600 feet east of the Last Chance, has impelled the Last Chance people to go to work in earnest. The Trustees of the Last Chance Company are F. K. Bechtel, President; George Osgood, Vice-President; Robert Barton, S. Lubeck and P. G. Childs. Dave Hunt, of the Queen Bee is superintendent, and T. A. White is Secretary.

COUNTY SEAT BUSINESS. — Strenuous efforts will be made in proper time for the removal of the county seat to Bodie. Bodie being now a fixture, it is not questioned but there will be a Bodie as long as there is a county called Mono. New county buildings are required, and the question of location we think can be very easily settled. The less that can be said just at present by the press is, we opine, better for the cause. It is like administering an overdose to a candidate for public position. It is detrimental rather than beneficial to him. Quiet, hard workers are now in the field, and to them belong the laurels. Let not the slightest obstacle be thrown in their way.

EXCELLENT PROPERTY FOR SALE.—F. Miletich & Co. advertise, under "New To-Day" their excellent property situated opposite Wagner's Saloon, on Main street, known as the San Francisco Market, together with the house, lot, fixtures and all their goods. It is a splendid opportunity for any person desiring to engage in that lines of business.

MARYLAND CON.—A heavy blast in the north drift of the Maryland Con. opened out, to the entire width of the drift, four feet, a vein of fine quartz matter. A stringer was exposed coming in of excellent ore, which being tested assayed $25 per ton.

DEPARTURE.—Our bashful cotem. takes a new departure. We sincerely trust it will be on the road to truth and rectitude. "The vilest sinner may return," and we are prepared to "endure, then pity," but fear 'twould be an unsavory old embrace.

WALKING MATCH.—A grand walking match is advertised to come off at Miners' Union Hall, Friday, July 18th. Time, twelve hours; for $500 aside, between Miss Viola Roseberry, late of New Orleans, and Joe Kellogg, late of St. Louis.

Special Notices.

Fast Time.—On and after Tuesday, July 1st, the U. S. Stage Company's line, via Bridgeport and Antelope Valley, will leave Bodie at 3 A. M., arriving at Carson at 6 P. M. same day, connecting with the Lightning train, arriving in San Francisco at 11 A. M. the next morning. Passengers by this route will have less staging and make better time between Bodie and San Francisco than can be had by any other line. *

Banner Brothers have marked down the price of their fine clothing and gent's furnishing goods thirty-five per cent lower than any other house on the coast. Send your orders to Banner Brothers, corner C. and Taylor streets, Virginia, Nevada. *

SALOON KEEPERS, ATTENTION.—The finest and cheapest cigars to be had at Reinstein & Wolf's. Special bargains by the thousand or box. *

SCISSORISMS.

Times of the greatest calamity and confusion have ever been productive of the greatest minds. The purest ore comes from the hottest furnace; the brightest flash from the darkest cloud.

Beauty is the mark God sets on virtue. Every natural action is graceful. Every heroic act is also decent and causes the place and the bystanders to shine.—*Emerson.*

Madam Bonaparte often spoke of saying her prayers nightly. She always prayed for grace to forgive her enemies, she said, but added that it never came to her.

In a recent family quarrel at Central City, Ill., Oliver Sallis was shot dead by Richard Brown, his brother-in-law.

A barber's apprentice in Hungary cut his throat because a girl would not marry him. He was taken to the hospital at Ratisbon and was cured. It subsequently proved that the operation his larynx had undergone had given him a fine tenor voice, which he improved by practice, and he is now singing at the Opera House in Vienna.

A young lady called at one of our music stores the other day and asked for something new in piano music. The clerk asked her if it made any difference how many sharps there were in the piece. "Oh, no," she replied, "not in the least, for if there is more than two, I always scratch them out with my pen-knife."

Careful experiments in England have shown that welded iron is by no means so safe to resist pressure as that which has been secured by a system of rivets. Some late explosions have fully confirmed this conclusion.

The circumference of the earth is estimated at about 24,000 miles. The number of volcanic mountains is 559. The greatest projectile power of any of these volcanoes, which we have read of, is that of one which ejected to a distance of nine miles masses of rock thirty tons in weight.

And in accordance with law and an order of the Board of Directors, made on the fifth day of June, 1879, so many shares of each parcel of such stock as may be necessary will be sold at public auction, at the auction house of John Middleton & Son, 419 Pine street, San Francisco, Cal., on THURSDAY, the thirty-first (31st) day of JULY, 1879, at the hour of one o'clock P. M. of said day, to pay said delinquent assessment thereon, together with costs of advertising and expenses of the sale.

WM. H. LENT, Sec'y.

Office—Room 62 Nevada Block, 309 Montgomery street, San Francisco, California. jy14-td

Assessment Notice.

QUEEN BEE MINING COMPANY—LOcation of principal place of business, San Francisco, California; location of works, Bodie, Mono county, Cal.—Notice is hereby given that at a meeting of the Board of Directors, held on the Tenth day of July, 1879, an assessment, No. four (4) of Ten Cents per share, was levied on the capital stock of the corporation, payable immediately in United States gold coin, to the Secretary, at the office of the company, 113 Leidesdorff street, San Francisco, California.

Any stock upon which this assessment shall remain unpaid on the Thirteenth day of August, 1879, will be delinquent, and advertised for sale at public auction, and unless payment is made before, will be sold on TUESDAY, the SECOND day of SEPTEMBER, 1879, to pay the delinquent assessment, together with costs of advertising and expenses of sale. By order of the Board of Directors.

T. A. WHITE, Secretary.

Office—No. 113 Leidesdorff street, San Francisco, California. jy14-td

Luhrs of San Francisco, commission merchants and wholesale dealers in provisions, 291 Front treet and 307 Sacramento street, and the business will hereafter be conducted under the firm name and style of Page, Wheaton & Co. jy2-tf

Miscellaneous Notices.

Notice to Co-Owners.

TO HENRY PHILLIPS AND THE AJAX Gold and Silver Mining Company: Notice is hereby given by the undersigned, to the above named parties, that the undersigned have done, completed and paid for the necessary work and survey on the "Bob Ingersoll" mining claim situate in Bodie Mining District, on what is known as Silver Hill, in the County of Mono, State of California, as required by the Acts of Congress for the years 1877 and '78. And you, the above named co-owners, are hereby notified that if you fail to contribute your and each of your proportions of the said expenditures for said work so done, and said survey so made on said mining claim as aforesaid, as required by Section 2324 of the Revised Statutes of the United States, your and each of your interest and interests will become the property of the undersigned at the expiration of ninety days from this date.

Said payments to be made to either J. J. Welch or T. A. Stephens of Bodie.

HENRY GOODSHAW.
J. J. WELCH.
JAMES MOONEY.
T. A. STEVENS.

Bodie, June 24, 1879.

Special Notice.

THE UNDERSIGNED, HAVING PURchased the dry goods business and other property of Silas B. Smith, at Bodie, Mono county, California, desires to state that the business will be continued as heretofore, and that a full and complete assortment of the latest novelties will be kept on hand. Notice is also given that all moneys, outstanding accounts, notes, rents and dues of every character due, or becoming due, to the said Silas B. Smith, at Bodie, on or after the 12th day of June, 1879, are payable to me.

ALFRED P. ELFELT.

Application for a Patent

TO THE LIZZIE MINE.

[No. 143.]

UNITED STATES LAND OFFICE,
Bodie, California,
June 16, 1879.

NOTICE IS HEREBY GIVEN THAT THE Oro Mining Company, whose postoffice address is San Francisco, California, has this day filed its application for a patent for fifteen hundred linear feet of the Lizzie mine or vein, bearing gold and silver, with surface ground one hundred feet in width, situate, lying and being in Bodie Mining District, County of Mono and State of California, and known and designated by the field notes and official plat on file in this office as Lot Number 103, in Township 4 North, Range 27 East of Mount Diablo Base and Meridian. The exterior boundaries of said Lot No. 103 being as follows, to wit: Variation 17 degrees east.

Commencing at a post at the northerly end of the Lizzie lode line; thence S 66 degrees 48 minutes E, .75 links to a post marked "Lizzie, Post No. 1, N E corner," in mound of rocks; thence (deflecting 93 degrees 18 minutes to the right, making the interior angle 86 degrees 42 minutes no deviation) S 28 degrees 30 minutes W, 17.08 chains, shaft bears west 19 links, distant 17.25-3 post L L No. 2, bears N 66 degrees 48 minutes W, 75 links distant to a post marked "Lizzie, Post No. 2," in mound of rocks; thence (deflecting 9 degrees 3 minutes to the left, making the interior angle 89 degrees 3 minutes no deviation) S 17 degrees 27 minutes W, 5.47-7 chains to post marked "Lizzie, Post No. 3, S E corner," in a mound of rocks for the S E corner, from which section corner common to Sections 16, 17, 20 and 21, Township 4 N, Range 27 E, Mount Diablo Meridian, bears S 36 degrees 44 minutes W, 16.93 chains distant. The northeast corner of the Noonday mine (Scowden survey) bears S 14 degrees 17 minutes W, 3.59 chains distant; thence (deflecting 95 degrees 45 minutes to the right, making the interior angle 84 degrees 15 minutes no deviation) N 66 degrees 48 minutes W, 75.7 chains post marked "Lizzie L L. No. 2, S B," 1.51 chains to post marked "Lizzie Post No. 4, S W corner," in a mound of rocks for S W corner; thence (deflecting 84 degrees 15 minutes to the right, making the interior angle 95 degrees 45 minutes no deviation) N 17 degrees 27 minutes E, 5.47-4 seconds post marked "Lizzie L L, No. 2," bears S 66 degrees 48 minutes E, 75.8 links distant to a post marked "Lizzie, No. 5," in a mound of rocks; thence (deflecting 90 degrees 3 minutes to the right, making the interior angle 17 degrees 57 minutes no deviation) N 26 degrees 30 minutes E, 17.25-3 chains to a post marked "Lizzie, Post No. 6, N W corner," in a mound of rocks for the N W corner; thence (deflecting 86 degrees 42 minutes to the right, making the interior angle 93 degrees 1 minute no deviation) S 66 degrees 48 minutes E, 75.8 chains to post at the northerly end of the lode line, the point of beginning, containing 3.41 acres.

This claim is bounded on the north by Goodshaw mining claim, west by the Inca, east and south vacant land.

The location of this mine is duly recorded in the Recorder's office of Bodie Mining District, in Book F, page 5, of Mining Records.

Any and all persons claiming adversely any portion of said Lizzie mine or said mining ground as hereinbefore described, are required to file their adverse claim with the Register of the United States Land Office at Bodie, in the State of California, during the sixty days period of publication hereof, or they will be barred by virtue of the provisions of the Statute. R. M. BRIGGS, Register.

Save Your Gold!

HIGHLY IMPORTANT TO MINERS AND QUARTZ MILL MEN!

Silver-Plated Amalgamating Plates

THE BEST PROCESS YET DISCOVERED SAVING FINE OR FLOAT GOLD.

Extensively used with great success in gravel and placer mining in various parts of the Pacific Coast. Over five hundred orders have been filled and the demand is constantly increasing. A large number of these Plates were sent to the Snake River mines, Idaho, last year, and a great many orders are being filled for them this season. Circulars containing full instructions for working these Plates sent with each order. Old Mining Plates bought or taken in exchange for new Silver-Plated Plates, and full value allowed. Gold extracted from old Plates at a moderate cost by a new and economical process. Old Plates (which often contain a surplus of gold above the cost of plating) can be re-plated.

With the most extensive facilities on the Pacific Coast, orders can be filled very promptly, and satisfaction guaranteed.

Mining men and the public generally are cautioned against unprincipled and irresponsible parties traveling through the country, endeavoring to secure orders for very inferior qualities of Silver-Plated Mining Plates.
